

Fire Control Water Trailer

550, 800, or 1,025 Gallon

Firefighting Water Trailer

The Fire Control Water Trailer stands as a reliable asset in times of crisis and beyond. Easily fill its tank from various water sources, be it municipal supplies, storage tanks, ponds, or streams. Feel assured as you tow it across your property, thanks to its robust 6" channel iron frame and safety-enhancing surge brakes.

Utilize the fire hose for precise spot spraying or deploy the rear-mounted spray bar for comprehensive coverage, spanning 25 feet. Propelled by a Honda engine and Tsurumi pump, this setup ensures efficient operation.

Features

- 550, 800, or 1,025 gallon sized algae resistant tanks
- 4 HP Honda engine and 2" Tsurumi pump
- 6" channel iron frame

Benefits

- Durable and built for off-road use
- Fill water tank easily with three fill options
- Targeted spraying with fire hose
