

Potable Water Trailer

550 Gallons

Potable Water Trailer

The 550-gallon Express Potable Water Trailer is a reliable solution for transporting potable water to various locations, making it perfect for portable offices, RVs, cabins, and remote sites.

While the trailer may not have NSF certification, its tank, pump, hoses, and plumbing components are all approved by the FDA, NSF, and ANSI for use with potable water, ensuring safety and compliance with industry standards.

With its capacity, durability, and compliance with regulatory standards, the 550-gallon Express Potable Water Trailer provides a versatile and reliable solution for transporting and distributing potable water in a variety of settings.
