

# UTV Sprayers

## UTV Sprayer

Built in America, our utility vehicle sprayers are engineered and manufactured to last season after season. These low-profile sprayers are designed to slide into the box of a UTV and are often used for boom and boomless spraying applications. Every UTV sprayer is assembled with only premium brand components like Honda and Banjo to ensure durability and minimize spraying downtime.

## Compatibility

Popular side-by-side brands that can carry our UTV sprayers:

- Gravely Atlas JSV
- John Deere Gator
- Arctic Cat Prowler
- Kubota RTV
- Kawasaki Mule
- Polaris Ranger
- Honda Big Red
- Can-Am Defender
- Bobcat
- CAT
- Yamaha Viking
- Mahindra Retriever

This UTV sprayer was engineered to slide into the box of a utility vehicle. Because of its high-volume pump, boom spraying is an easy job for this sprayer. It also includes built-in forkable points for easy handling.

Size (US Gallons) - 60, 100

### SPRAY-COMMAND™ CONTROLS

Select where you want to spray and at what pressure with all controls mounted to the SWING-ARM™.

### SWING-ARM™

All controls are at your fingertips and within reach from the UTV cab. Hoses are protected and out of sight.

### QUICK-ATTACH™ BOOM BRACKETS

Built-in boom connection points to save time and hassle when removing and attaching a spray boom.

### AUTO-DRAIN™ SUMP BASE

The sloped tank base channels every ounce of spray chemical to the drain. Just where it should go.

### QUICK-CONNECT™ BOOM PORTS

Plumb a spray boom to this sprayer in seconds with three brass screw-on fittings. Zero tools needed.

### TIME-SAVER™ FORK POINTS

The built-in fork slots make the entire unit a breeze to lift and load.
