

NON-DOT | PRIVATE-AG CONE-BOTTOM TRANSPORT

# CONE BOTTOM TRAILER

1,200 GALLON · SELECT SERIES (NON-DOT)

The same 1,200-gallon vertical cone-bottom tank in a simpler, lighter build for private agricultural work. The cone bottom drains every last gallon for complete dispensing and accurate batching, while a clevis hitch and Honda®-powered transfer pump keep it straightforward and affordable for off-road use.

## DRAINS 100% CLEAN – BUILT SIMPLE FOR THE FARM.

The vertical cone-bottom tank drains completely: every gallon dispenses, nothing settles in the bottom, and cleanout between products is quick. The Select Series keeps it simple and lighter for off-road work; a 20,000-lb clevis hitch and a 195-GPM Honda®-powered pump, without the DOT brakes, lighting and fenders.

Non-DOT – for off-farm / private agricultural use, not highway towing. Need a road-legal build? Ask about the **DOT Limited Series**.

## — WHY CREWS CHOOSE IT

- VERTICAL CONE-BOTTOM TANK**  
Drains 100% clean – no residue, accurate batching, and fast cleanout between chemicals.
- HONDA®-POWERED 2" BANJO PUMP**  
A 195-GPM centrifugal poly pump self-loads and dispenses liquid right on site.
- 20,000-LB CLEVIS HITCH**  
A heavy clevis pull pairs with farm tractors and trucks for off-road towing.

- SIMPLER, LIGHTER NON-DOT BUILD**  
Clevis hitch, no brakes or lights, just 1,940 lb dry, affordable and easy for private off-road use.
- HEAVY-DUTY RUNNING GEAR**  
Dual 7,000-lb slipper-spring axles on 235/80 R16 10-ply highway tires and ag wheels.
- BUILT TO TRANSPORT LIQUIDS**  
UV-stable teal/black cone tank, 2" Banjo manifold, and a 20' discharge hose.

# 1,200 CONE BOTTOM TRAILER – FULL SPECIFICATIONS

SPECIFICATION	1,200 CONE BOTTOM TRAILER · SELECT SERIES (NON-DOT)
